

CASE STUDY

# LANGLEY UTILITIES

SUMMARY STATEMENT

Langley Utilities is the leading supplier of power lines and street lighting services in Ontario. They have been serving companies throughout the province since 1992. As an electrical utilities company, Langley Utilities ensures that the importance of health and safety is embedded in their workplace culture and organizational vision.

ABOUT THE PARTNERSHIP

Langley Utilities Contracting Ltd. is an electrical contractor that specializes in maintenance and construction for overhead and underground power lines, street lighting and fibre optics.

THE CHALLENGE

Donna Ormiston, Business Manager and COO runs and maintains the day to day operations of the growing company. With a number of sites to manage, Donna saw a need to invest into improving their current health and safety program.

Langley Utilities was looking for ways to increase awareness of health and safety matters amongst front line employees and managers while attempting to simplify their current reporting on near misses.

**We're now able to investigate on our near misses and incidents in a go-forward manner.**

Donna Ormiston, Business Manager & COO — Langley Utilities

AFTER USING ECOMPLIANCE

**100+**

USERS

**475+**

DAYS ACCIDENT FREE

**After using eCompliance's OHS software for just over a year, Langley Utilities has already been able to reap the benefits of the rewarding health and safety system they always wanted.**

They've successfully been able to grow their health and safety program to identify and complete corrective and preventive actions and tasks.

They now have a system that enables them to identify near misses and incidents and assign the appropriate actions through a simple click of a button.

Additionally, Langley Utilities has a number of sites that require regular inspections. The mobile inspection app allows their crews to complete their inspections in a more efficient and effective manner. The health and safety assistant is able to go on-site, inspect

"This has allowed us to improve our fleet of vehicles and equipment while encouraging our shops and yards to improve their health and safety housekeeping," stated Ms. Ormiston.

With over 100 users of the system, Langley Utilities has successfully been able to increase the awareness of health and safety amongst both their employees and managers.

Langley has proudly announced they have had 475 days accident free and plan to continue to grow that number by maintaining a heavy focus on their health and safety system.
